

Photosynthesis in a Tube Lab

Photosynthesis in A Tube

Materials:

Small Plants

Test Tubes-Large

Water

Stoppers

Soil3

Timer

pH strips

Question: Can plants grow without a light source?

Prediction:

Hypothesis:

Test Tube Observations: What do you notice when you cork the test tubes? (wait 15 minutes)

Test 1:

Test 2:

Test Tube 1-Place in the light

Light

Photosynthesis in a Tube Lab

Test Tube 2-Place in the dark	Dark
Conclusion (What did you learn?)
