

Vocabulary Hopscotch

1. Using painter's tape (or chalk if you have an outdoor space) make a hopscotch board on the floor.
2. Write lesson/unit vocabulary words on 10 index cards or post-it notes.
3. Place one vocabulary card in each square on the hopscotch board.
4. Student tosses the bean bag onto the hopscotch board. Whichever box the bag lands in, the student reads the word and gives the definition.
5. Repeat until all the words have been used.

Expand: Once all the words have been used, have students play again. This time instead of giving the definition, they use the word in a sentence.
